# Notes to the Financial Statements

---

## **Atheist Foundation of Australia Inc. For the year ended 31 January 2017**

### **1. Statement of Significant Policies**

The Committee has prepared the financial statements on the basis that the Association is a non-reporting entity because there are no users dependent on general purpose financial reports. This financial report is therefore a special purpose financial report that has been prepared in order to meet the needs of the Committee.

The financial report has been prepared in accordance with the significant accounting policies disclosed below which the Committee has determined are appropriate to meet the needs of the Committee. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes. The accounting policies that have been adopted in the preparation of this report are as follows:

#### **1.(a) Income Tax**

The income tax expense for the year comprises current income tax expense. The Association does not apply deferred tax. Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities are therefore measured at the amounts expected to be paid to the relevant taxation authority.

#### **1.(b) Property, Plant and Equipment**

Property, plant and equipment are carried at cost, independent of Committee's valuation. All assets, excluding freehold land and buildings, are depreciated over their useful lives to the Association.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in the Committee's equity.

Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the profit and loss. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the profit and loss and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

The carrying amount of plant and equipment is reviewed annually by the Committee to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amounts.

#### **1.(b) Trade Receivables and Other Receivables**

Trade receivables and other receivables, including distributions receivable, are recognised at the nominal transaction value without taking into account the time value of money. If required a provision for doubtful has been created.

#### **1.(c) Trade Creditors and Other Payables**

Trade creditors and other payables, including bank borrowings and distributions payable, are recognised at the nominal transaction value without taking into account the time value of money.
