

## AFA Magazine Report

### Annual General Meeting 2016

#### Changes made to *The Australian Atheist* in 2015

##### *Distribution Frequency*

In late 2014 the frequency of the distribution of the magazine went from every two months to every three months (quarterly). This frequency continued through 2015 and no complaints have been received from members.

##### *Format*

In *Issue 47* the format changed with a redesigned magazine that has been very well received. A number of members contacted to advise that the new format was very professional and readable. There are still a handful of members that have difficulty with the electronic version in relation to having to scroll because the screen is too small. I am researching options for e-publication that will allow users to personalise set up.

#### Contributors

We have now established a number of regular contributors for the magazine. I'd like to take the opportunity to thank all contributors. In particular, the following regular contributors in 2015:

- Kylie Sturgess
- Bob Irwin
- Mike Meyerson
- Sten Bjerking
- Rich Wisken
- Christis Tombazos
- Jim Mulholland
- Hugh Harris

#### Planning for 2016

The plan for 2016 is to further investigate the e-publishing options for those that use smart devices for portability and ease of access.

**The Australian Atheist**
