

## AFA Magazine Report Annual General Meeting 2017

# The Australian Atheist

### Distribution Method

The number of members receiving the digital (PDF) version of the magazine has increased exponentially compared to those receiving printed copies. It is expected that this trend will continue. In 2017–2018 a project will be undertaken to develop the digital version into a user-friendly app that can be downloaded and costed.

### Contributors

I'd like to take the opportunity to thank all contributors. In particular, the following regular contributors in 2016, many of whom have been contributors for the past few years since I took over as editor:

- Kylie Sturgess
- Bob Irwin
- Mike Meyerson
- Christis Tombazos
- Jim Mulholland

### Magazine Committee

In the 2016 member survey a number of members identified that they may be interested in being involved in the magazine production. Further, I include a call out in every issue for members interested in being part of the magazine committee. This will be followed up and reinforced for member participation options over 2017.
